SUBJECT: Special Packages with Limited Availability

From time to time, Special Packages are offered to us that have *limited availability*. In the past, a few boards might order and receive all of these products.

Effective with today's date, we are implementing a new internet-based allocation program for those boards interested in ordering these products that have special added value. ***To receive these items, electronic ordering is required.***

To view this program, log on to our Web Site at [www.ncabc.com](http://www.ncabc.com), click on ABC Boards, then Board News, enter the password and select the bulleted item "Special Packages with Limited Availability," then click on the item of interest. An order screen will appear, enter the information requested and click "Order Item." The order will be sent to the ABC Commission for approval. You will be notified via email of your approved allocation.

Currently, we will be offering at least six different products from now through March 2002. Please check our site daily for availability of the Special Packages.

If successful, this system will be used next year to view and order all Holiday Items. If you have any questions, please contact me.
